**Star
Barber Shop**

When I was asked to write a paragraph about how long I had been in business, I began to feel like an antique.

The Star Barber Shop has existed in Pulaski since the early 1920s.

I began practicing the Barber trade in January 1961, but didn't begin working fulltime until May 1965. Some people say I am still practicing.

There are many good stories that could be told, but the main one is the face of all the wonderful people I have met over all these years.

Thank you, Sammy Corder.

If you have neck or back pain that isn't responding to nonsurgical treatments, you may be a candidate for surgery. Causes that often require surgery include disc problems, bone spurs, spinal stenosis and compression fractures.

If your physician thinks you may be a candidate, you'll want to attend one of our upcoming seminars. Our team of experts will cover the latest in treatments that can help with pain relief and get you back to feeling your best.

Programs will include hors d'oeuvres and Q&A sessions.

To register, call Consult-A-Nurse®, our free 24/7 physician referral and health information service, at 877-2HCA-DOCS (877-242-2362).
